Become a Bilingual Standardized Client

Touchstone Institute is currently seeking bilingual (French & English) Standardized Clients (SCs) to work high-stakes assessments on a casual basis.

What is a Standardized Client?

Standardized Clients (SCs) play a key role in Objective Structured Clinical Exams (OSCEs), a performance-based test that is an important component of many high-stakes assessments for health professionals. An SC is an individual who has been trained to portray, in a consistent, standardized manner, a patient in a medical situation. SCs recreate real-world situations by providing a medical history or simulating physical symptoms, allowing participants to practice their skills or show their expertise.

Details

Qualifications: Applicants must be comfortable working and interacting in both French and English. No acting experience or medical knowledge is required. All age groups are welcome.

Compensation: \$19/hour

Dates/Timing: Exams occur throughout the year. SCs are employed on a casual basis and are required to attend two paid training sessions prior to the exam. Exam days typically run from 7am-6pm.

Location: Downtown Toronto, near University Avenue and Wellington Street West (St. Andrew's subway station).

About Touchstone Institute

Touchstone Institute is a non-profit corporation that offers expertise in evaluation and curriculum development to promote public confidence in professional competence in the Canadian workforce. We excel in providing competency-based services in support of successful transitions to training and practice that meet professional and societal needs.
